UltraRay has access to over 2000 custom colours and prints including stain resistant and anti-bacterial fabrics. Standard colours* and prints shown are available from stock. Please contact us for non-standard colours or prints. Colours may be added or discontinued at any time.

Basic Lettering

Basic Lettering is available in three type styles (block, brush script, and athletic block). Lettering is very useful for identifying an apron to a specific department, clinic or individual.

Dr. Francis Smart	Block	Diagnostic Imaging
<i>Dr. Francis Smart</i>	Script	<i>Diagnostic Imaging</i>
Dr. Francis Smart	Athletic	Diagnostic Imaging

Custom Embroidery and Stock Designs

A logo or design specific to your facility will further enhance the product and clearly identify it. Each logo, based on its design and size, must be quoted. A one-time disk setup charge applies on custom embroidery. Stock designs are not subject to a setup charge.
