- Colours: Black and Tortoise.

Regular

Large

*All glasses are 0.75mm L.E. Side-Shields (If equipped) are 0.35mm L.E. All glasses include a protective case and strap.

VET Mittens

This shield offers lead-equivalency of 0.5mm while positioning animals during procedures. Combination of Velcro wrist strap and non-slip material on palm prevents slippage while securing your patient.

Open Hand Shield

This shield resembles a paddle with a cuff. It is used to protect the top of the hand. One-size fits all with a lead-equivalency of 0.5mm.

Open Palm Mitts

These mitts are primarily designed for veterinary applications where fingers and thumbs are available to be used in a procedure. One-size fits all with a lead-equivalency of 0.5mm.

Open Palm with Thumb

Identical to the Open-Palm Mitt with a closed thumb. One-size fits all with a lead-equivalency of 0.5mm.

Ducky Mitts

These mitts are designed for veterinary applications where fingers and thumbs must be protected. One-size fits all with a lead-equivalency of 0.5mm.

Closed Mitts with Thumb

Similar to the Ducky Mitt without the finger pouch. One-size fits all with a lead-equivalency of 0.5mm.

15" Lead Vinyl Gloves

Each glove features an outer one-piece soft urethane molded design with an inner liner made from breathable nylon for comfort and is easily removed for inspection. Available in pairs with a lead-equivalency of 0.5mm.

VETERINARY SANDBAGS with/without handles

Sandbags are rectangular in shape. An inner bladder is filled with sand and then inserted into a blue nylon or vinyl bag.

CODE (NYLON)	CODE (VINYL)	DESCRIPTION
VSB5-N	VSB5-V	VET Sandbag - 5lb - 7" x 8"
VSB7-N	VSB7-V	VET Sandbag - 7lb - 7" x 12"
VSB12-N	VSB12-V	VET Sandbag - 12lb - 7" x 16"
VSB5H-N	VSB5H-V	VET Sandbag - 5lb - 7" x 8" with Handles
VSB7H-N	VSB7H-V	VET Sandbag - 7lb - 7" x 12" with Handles
VSB12H-N	VSB12H-V	VET Sandbag - 12lb - 7" x 16" with Handles
VSB12S-N	VSB12S-V	VET Sandbag - Snake - 12lb - 5" x 27"

CUSTOM EMBROIDERY

- Custom embroidery and stock designs available.
- A logo or design specific to your facility will further enhance the product and clearly identify it.
